## Extending the scope: Authentic learning and Career Counseling and Guidance in Higher Education

September 20th 2018, Stockholm University

The multiplier event *Extending the scope: Authentic learning and Career Counseling and Guidance in Higher Education* takes place at 20<sup>th</sup> September at Stockholm University, and is organised by the Skill-Up project funded by the Erasmus+ Programme of the European Union. The event holds contributions from different European countries.

The purpose of the project is to promote the employability of new graduates, which is linked to the current priority of Europe 2020 strategies. This should be done by strengthening the links between higher education and the labour market. The project is shaping the prerequisites for developing innovative teaching methods and authentic learning approaches, increasing cooperation between education and the labour market and spreading a replicable process in Europe that corresponds to the labour market competence requirements.

The official language of the event will be English.
